• Do you notice a decline in your child's behavior when they experience a change?

Many children are anxious about change, whether it is a move, a change in schools, when a person or animal enters or leaves a household, or even a change of schedule. Charese Taylor, Seven Counties Therapist, will help guide us through what to expect from a child experiencing a change and how we, as parents, can help ease a child's anxiety.

Our Parent Support Group is designed to give you practical and helpful advice to help strengthen you as a parent. Best of all, you will meet other parents and caregivers just like you who want the best for their children and families!
